

# Grades Online!

Online grades will be coming to Kellogg soon! The grades should be available by October 1st. This is a wonderful tool to keep track of your child's current progress as well as their missing assignments. The following directions will also be posted on the Kellogg website.

To access grades for a particular class, go to the Kellogg website at:

<http://schools.shorelineschools.org/kellogg/>

Click on "**Staff.**"

Click on "**Staff emails, iCals & websites.**"

You will get a list of teachers.

Scroll down to your classroom teacher.

Click on the teacher's **webpage icon**. This will take you to the teacher's Swift website.

On the teacher's Swift website, click on the section "**grades**" on the lefthand side.

Enter your **child's last name** and their **password**. The password is a six digit number which should be the same for all of your child's classes at Kellogg.

Your child's grades should now be displayed!

Note: Once you have visited the teacher's Swift website, you may want to bookmark the URL

(For example, <http://learn.shorelineschools.org/tech/rweber/index.php>.)

If you bookmark the URL, then in the future you can go directly to this teacher's grade page without going through the Kellogg website. However, you will still need to enter the student ID number and password.

Grades will be updated at progress report time (10/9/06, 11/6/06, 1/16/06, 2/12/06, 4/16/06, 5/21/06), during the week following the end of each trimester (12/1/06, 3/15/06), and at the end of the school year (6/22/06).
