NOTES

The courses listed on this sheet are the ones for which the Registration Guide gives course codes. They are the only ones you will be able to select when you go online to enter your Next Year Requests. However, you may include on your registration form any class you are eligible to take. Note that there are columns on the registration form where you check whether you were able, or unable, to enter each course into the computer system. Circle the the letter N in the "ENTERED?" column for those courses with no code available. Leave the code column blank in these cases.

Availability of courses is subject to change based on school needs. Placement in courses may change based on student's end-of-semester performance.

Please check the prerequisites and/or recommendations for each class you enter on your registration form to make certain you qualify to take the class.

- sign up for both classes.

/ = Class may be taken for just 1st,
or both 1st and 2nd semesters.
